green

We can help you buy the car you want and pay less for your loan.

What shade of green do you have in mind?

Let's face it. High gasoline prices have changed the way we think about driving. Our SUV crazed society has now become more eco-conscious. This is a good thing! And Florida Credit Union can help you adapt.

With low rates and payments, we can help you buy a more fuel-efficient car and pay less for your loan. If you're happy with your current vehicle but you'd like to reduce your payments, ask us about refinancing. We can rewrite loans from other financial institutions, and our low rates can put more "green" in your wallet.

FCU has loan officers available 24 hours a day, 7 days a week. You can talk to us about your financing (or refinancing) needs, or apply online at www.fcu.org. Act right away and we will give you a \$150 Visa Gas Card — that's right, finance or refinance your auto loan and you will walk away with a \$150 Visa Card.

For more information on FCU loans simply call your local office, visit www.fcu.org or stop by your nearest branch.

*FCU loans are not eligible for refinancing or gift card.
