

FCU Mobile Banking <https://m.flcu.org>

FCU now offers mobile banking - a fast, free and convenient way to manage your accounts from your mobile phone!

Mobile Banking Features

As an FCU member, you can use mobile banking to:

- View account balances
- Transfer funds
- Pay bills
- Make payments

If you're already enrolled in home banking, you can use the mobile banking service. If you're not signed up yet, once you enroll you will be able to use the mobile banking service.

Your Information is Secure

FCU's mobile banking uses advanced encryption technology to keep your information safe. As with home banking, if you do not recognize your image and passphrase, do not enter your password.

What types of devices can access the mobile site?

The FCU mobile site can be accessed by any cell phone or PDA device that is set up with a wireless provider allowing Internet access.

This process may require you to log in multiple times during your first mobile banking session. This is normal. As long as you see the correct image and passphrase, continue logging in. Once the system is able to authenticate you, the process will be completed and future log ins will be fast and easy.

**If you have questions about your wireless Internet capabilities, contact your carrier.*

It's Easy to Get Started!

- 1) open your mobile web browser to <https://m.flcu.org>
- 2) Enter your User ID
- 3) You will then see your image and passphrase that you normally see in home banking.
- 4) Enter your home banking password
